

Technical drawing of a bent pipe with the following dimensions and features:

- Overall horizontal length: 200
- Overall vertical height: 68
- Horizontal distance from the left vertical line to the first bend: 100
- Horizontal distance from the first bend to the second bend: 112
- Angle at the first bend: 95°
- Angle at the second bend: 50°
- Pipe diameter: $\varnothing 3$
- Thickness of the pipe wall: 1.5
