

Technical drawing of a hanging cabinet. The main view shows a front elevation with a triangular top and a rectangular body. Dimensions are indicated in millimeters:

- Overall height: 500
- Height of the triangular top: 150
- Height of the rectangular body: 1000
- Width of the cabinet: 730
- Width of the triangular top: 678
- Distance from the top edge of the rectangular body to the first row of shelves: 65
- Distance between rows of shelves: 100
- Thickness of the cabinet door: $\varnothing 8$

The cabinet features a hanging mechanism at the top and a series of shelves inside the main compartment. A side view on the right shows the cabinet's profile, and a bottom view at the bottom shows the base of the cabinet.
